Definitions:

**\*Employed Physicians** – A physician is considered an employee for PCF purposes in the nursing home withholds and pays Social Security and Medicare taxes and pays unemployment tax on wages paid to the employee. If a physician is treated as an independent contractor for tax purposes then he/she can not be considered an employee for the PCF purposes.

**Comprehensive Nursing Care** – Nursing that includes, but is not limited to, any of the following:

- (A) Intravenous feedings.
- (B) Enteral feeding.
- (C) Nasopharyngeal and tracheostomy aspiration.
- (D) Application of dressings to wounds that:
  - (i) require the use of sterile techniques, packing, or irrigation; or
  - (ii) are infected or otherwise complicated
- (E) Treatments of Stages 2, 3, and 4 pressure ulcers or other widespread skin disorders.
- (F) Heat treatments that:
  - (i) have been specifically ordered by a physician as part of active treatment; and
  - (ii) require observation by nurses to adequately evaluate the process.
- (G) Initial phases of a regimen involving administration of medical gases.

**Residential Nursing Care** – Nursing that includes, but is not limited to, any of the following:

- (A) Identifying human responses to actual or potential health conditions.
- (B) Deriving a nursing diagnosis.
- (C) Executing a minor regimen based on a nursing diagnosis or executing minor regimens as prescribed by any of the following:
  - (i) A physician.
  - (ii) A physician assistant.
  - (iii) A chiropractor.
  - (iv) A dentist.
  - (v) An optometrist.
  - (vi) A podiatrist.
  - (vii) A nurse practitioner.
